

THIS IS A LB2 OR LIORANBOARD2 BUTTON ACTION THAT YOU CAN EDIT THE FOLLOWING OF YOUR STREAM WITH CHAT:

- STREAM TITLE
- STREAM CATEGORY / GAME
- STREAM TAG

Here are a list of all the commands and what it does:

<u>CHAT COMMAND</u>	<u>WHAT THE COMMAND DOES</u>
!Settitle title	Will Set The Stream Title
!settitle title	Will Set The Stream Title
!Setgame Game	Will Set The Stream Category / Game
!setgame	Will Set The Stream Category / Game
!settag Tag !Tag !Tag !Tag !Tag	Will Set The Stream Tags
!Settag Tag !Tag !Tag !Tag !Tag	Will Set The Stream Tags
!settag Remove	Will Remove A Stream Tag
!Settag Remove	Will remove a Stream tag
!Settag remove	Will remove a Stream tag
!settag remove	Will Remove A Stream Tag
!Settag clear	Will Remove All Stream Tags
!settag clear	Will Remove All Stream Tags
!Settag Clear	Will Remove All Stream Tags
!settag Clear	Will Remove All Stream Tags

Note:
For the ones that remove TAGS you can only use 1 2 3 4 5 and not 2 of the numbers
Also will only remove up to that number that you specified with the number
Lastly if you accidentally added the wrong Tag you Must Remove either with !settag clear command or !settag remove 1

NOTE:
If you use the command then !Settag remove (followed by a single number)
It Must Go from in the order 1, 2, 3, 4, 5 not random number or from 5, 4, 3, 2, 1

So the commands are as follow

- !settag Remove (followed by a single number) ---→ !settag Remove 1
- !settag remove (followed by a single number) ----→ !settag remove 1
- !Settag Remove (followed by a single number) ---→ !Settag Remove 1
- !Settag remove (followed by a single number) ----→ !Settag remove 1

Note:
For the Tags Button / commands it Must Start With an Capital Letter And every tag that you want to set must have an Empty space Followed by an Exclamation mark!
Between each of the commands

Only reason for the Exclamation mark! Symbol is that no TAGS Uses it

You can replace that with any other Symbol in the command named string split to array in line 11 of the button labelled “CHANGE TAGS”

You can use the following as an example for testing the tags

!Settag Any% !England !100% !LGBTGAI+ !Tutorial

Always remember you can only set up to 5 Tags
either 1 by 1 or all at once

Note:

Just to be sure to wait 5 to 10 seconds
Between each command use if it does
not work the first time

Also It will add a chat text if you don't want it you will
have to look for in each of the buttons and delete it

The text goes as follow

ALL OF THE TAGS WAS REMOVE

1 TAG WAS REMOVED + 4/5 OF THE TAGS WAS SET

2 TAG WAS REMOVED + 3/5 OF THE TAGS WAS SET
